Dear Sirs

**Principal PRS Plus**

**Tax treatment of funds under a private retirement scheme (“PRS”), contributors and contributors’ employers**

This letter has been prepared for inclusion in this Second Supplemental Disclosure Document in connection with the offer of units in the funds under Principal PRS Plus (formerly known as CIMB-Principal PRS PLUS) (hereinafter referred to as “the Scheme”). The funds under the Scheme comprise of funds listed in the Attachment 1 (hereinafter referred to as “the Funds”) which are structured as PRS funds.

The funds are offered under the PRS approved by the Securities Commission in accordance with the Capital Markets and Services Act 2007.

The purpose of this letter is to provide an overview of the Malaysian taxation treatment of the Funds under the Scheme, contributors to the Scheme and their employers.

**Taxation of the Funds**

The Funds are subject to the provisions of the Malaysian Income Tax Act 1967 (“MITA”).

Paragraph 20, Schedule 6 of the MITA exempts income of any “approved scheme” from tax. An “approved scheme”<sup>1</sup> is defined under Section 2 of the MITA to include a Private Retirement Scheme. Section 2 of the MITA defines “Private Retirement Scheme” to mean “a retirement scheme approved by the Securities Commission in accordance with the Capital Markets and Services Act 2007”.

The Malaysian Inland Revenue Board (“MIRB”) has clarified in its Public Ruling No.9/2014, Private Retirement Scheme issued on 24 December 2014 that income received by a PRS fund is exempt from tax under Paragraph 20, Schedule 6 of the MITA.

Note however that gains derived by the Funds from the disposal of chargeable assets as defined in the Real Property Gains Tax Act 1976 (“RPGT Act”) may be subject to real property gains tax under the RPGT Act.

**Implementation of Sales and Service Tax (“SST”)**

Sales and Service Tax (“SST”) was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

*Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Funds incurs expenses such as management fees, the management services provided by asset and fund managers are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a “taxable person”, who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as “taxable services”).*

---

<sup>1</sup> Pursuant to Section 2 of the MITA, “approved scheme” is defined to include the Employees Provident Fund, private retirement scheme or any pension or provident fund, scheme or society approved by the Director General under Section 150 of the MITA.

**THIS IS A SECOND SUPPLEMENTAL DISCLOSURE DOCUMENT WHICH HAS TO BE READ IN CONJUNCTION WITH THE DISCLOSURE DOCUMENT FOR PRINCIPAL PRS PLUS**

**Taxation of contributors**

**1. Distribution of profits**

Distribution of profits to the contributors of the PRS funds in the form of units is exempt from income tax in their hands.

**2. Tax relief on contributions**

Pursuant to Section 49(1D) of the MITA, individual contributors who are Malaysian tax residents and have made contributions to a PRS fund or paid premium for deferred annuity<sup>2</sup> in a basis period for a year of assessment are allowed to claim a tax relief of the aggregate amount of the deferred annuity payments or PRS contributions or both or RM3,000, whichever is less, for that year of assessment. This tax relief is applicable effective from the year of assessment 2012 until year of assessment 2025.

**3. Withdrawal of contributions**

Pursuant to Section 109G of the MITA, withdrawal of contributions from the Scheme by an individual contributor before reaching the age of 55 (other than by reason of permanent total disablement, serious disease, mental disability, death or permanently leaving Malaysia) would result in a withholding tax of 8% on the amount of contributions withdrawn, which would be deducted before payment is made to the individual contributor. The withholding tax deducted by the PRS provider is to be remitted to the Director General of the Inland Revenue Board within one month after making the payment to the individual contributors. Where the PRS provider fails to remit the withholding tax by the due date, a 10% penalty on the unpaid amount will be imposed on the PRS provider and the increased sum shall be a debt due from the PRS provider to the Government.

**Deductibility of contributions by employers**

Pursuant to Section 34(4) of the MITA, employers are eligible to claim a tax deduction of up to a total of 19% of an employee's remuneration in respect of contributions made by employers to approved schemes (including contributions to Employees Provident Fund, PRS or any provident fund, scheme or society approved by the Director General under Section 150 of the MITA) in respect of that employee.

\*\*\*\*\*

We hereby confirm that, as at the date of this letter, the statements made in this letter correctly reflect our understanding of the tax position under current Malaysian tax legislation and the related interpretation and practice thereof, all of which are subject to change, possibly on a retrospective basis. We have not been retained (unless specifically instructed hereafter), nor are we obligated to monitor or update the statements for future conditions that may affect these statements.

The statements made in this letter are not intended to be a complete analysis of the tax consequences relating to contributors of the Scheme. As the particular circumstances of each contributor may differ, we recommend that contributors of the Scheme obtain independent advice on the tax issues associated with the Scheme.

Yours faithfully

<b>Investment objective</b>	The Fund seeks to provide capital growth over the long-term by investing in the domestic market.	33

<b>Investment policy and principal investment strategy</b>	The Fund is managed to achieve a defined target return over the long-term through investments in the domestic market. ## 2. RISK FACTORS

### 2.1. GENERAL RISKS OF INVESTING IN THE FUNDS

Any investment carries with it an element of risk. Therefore, prior to making an investment, you should consider the following risk factors in addition to the other information set out in this Disclosure Document.

#### Returns not guaranteed

The investment of the fund is subject to market fluctuations and its inherent risk. There is **NO GUARANTEE** on the investment which includes your investment capital and returns, nor any assurance that the fund's investment objective will be achieved. You should also note that the fund is neither a capital guaranteed fund nor a capital protected fund. However, we reduce this risk by ensuring diligent management of the assets of the fund based on a structured investment process.

#### Legal risk and regulatory risk

The value of the fund may be affected by uncertainties in the legal and regulatory environment. A change in law or regulation made by government or regulatory body will materially impact the value of securities, business, sector or even market as a whole. These amendments to the laws and regulations may increase the costs of operating a business and hence reduce the attractiveness of its related investments. For example, if the regulatory body imposes a limit on the amount of margin an investment account is able to have, the impact on the stock market would be material as this change may force the existing investors who are currently breaching the limit to sell off their margined positions. You should also note that laws and guidelines relating to PRS may change and this may affect your PRS account and/or your ability to access your account balance.

#### Market risk

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's NAV.

#### Risks associated with Default Option

If you are in the Default Option, your current investment will be automatically switched into another fund upon attaining the next age group. The NAV per Unit may be lower at the point of switching than the NAV per Unit when you initially contributed into the fund. Hence, you may have to suffer losses relating to your investment costs upon disposal. We will notify you one (1) month before you attain the next age group, that your current investments will be automatically switched into another fund.

#### Liquidity risk

Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the fund holds assets that are illiquid, or are difficult to dispose of, the value of the fund will be negatively affected when it has to sell such assets at unfavourable prices.

In line with the funds' objectives, we will attempt to balance the entire portfolio by investing in a mix of assets with satisfactory trading volumes and those that occasionally could encounter poor liquidity. This is expected to mitigate the risks for the entire portfolio without limiting the funds' growth potentials.

#### Inflation risk

This is the risk that your investment in the fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased. This risk can be mitigated by investing in securities that can provide a positive real rate of return.

#### Manager risk

This risk refers to the day-to-day management of the fund by the manager which will impact the performance of the fund. For example, investment decisions undertaken by the manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund. Although the occurrence of such events is very unlikely, we seek to reduce this risk by implementing a consistent and structured investment process, systematic operational procedures and processes along with stringent internal controls.

### 2.2. SPECIFIC RISKS ASSOCIATED WITH THE INVESTMENT PORTFOLIO OF THE FUNDS

There are specific risks associated with the investment portfolio of each Fund. The key ones include but are not limited to the following:

Risk	Fund
<b>Stock specific risk</b>	<ul style="list-style-type: none"> <li>▪ PRS-C</li> <li>▪ PRS-M</li> <li>▪ PRS-G</li> <li>▪ PRS-E</li> <li>▪ REI</li> </ul>
Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.	
The impact is however reduced as the Fund invests in a wide portfolio of investments; thus, spreading the element of risk. Diversification can be achieved by investing in various companies across different	

Risk	Fund
industries or sectors that are uncorrelated. In addition, we will undertake an active bottom-up investment approach to ensure that the fundamentals of the stocks invested in are favourable.	
<b>Credit and default risk</b>	<ul style="list-style-type: none"> <li>▪ PRS-C</li> <li>▪ PRS-M</li> <li>▪ PRS-G</li> <li>▪ REI</li> </ul>
<p>The Fund will be exposed to a certain degree of credit and default risk of issuers or counterparties when the Fund invests in Deposits, debt securities, such as bonds, and/or conducts OTC transactions. Credit risk relates to the creditworthiness of the securities issuers or counterparties and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer or counterparties may impact the value as well as liquidity of the investments. Default risk relates to the risk that a securities issuer or counterparties either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investments. This could adversely affect the value of the Fund.</p> <p>We aim to mitigate this risk by performing bottom-up and top-down credit research and analysis to determine the creditworthiness of its issuers or counterparties, and impose investment limits on exposures for issuers or counterparties with different credit profiles as a precautionary step to limit any loss that may arise directly or indirectly as a result of a defaulted transaction. In addition, we impose a minimum credit rating requirement as rated by either local and/or foreign rating agencies and manages the duration of the investment in accordance with the objective of the Fund. Please refer to the investment strategy of the respective Funds for more information.</p>	
<b>Interest rate risk</b>	<ul style="list-style-type: none"> <li>▪ PRS-C</li> <li>▪ PRS-M</li> <li>▪ PRS-G</li> <li>▪ REI</li> </ul>
<p>Interest rate risk refers to the impact of interest rate changes on the valuation of fixed income securities and money market instruments. When interest rates rise, fixed income instruments' prices will tend to fall and vice versa. Therefore, the NAV of the Fund may also tend to fall when interest rates rise or are expected to rise. However, you should be aware that should the Fund hold a fixed income instruments until maturity, such price fluctuations would dissipate as it approaches maturity. In order to manage interest rates exposure of the Fund, we will manage the duration of the portfolio via shorter or longer tenured assets depending on our view of the future interest rate trend, which is based on our continuous fundamental research and analysis. As for Deposit, financial institutions may offer Deposits with lower interest rates when interest rates decrease. As such, this will reduce the potential returns of future Deposits placements which in turn will reduce the potential returns of the Fund.</p>	
<b>Country risk</b>	<ul style="list-style-type: none"> <li>▪ PRS-C</li> <li>▪ PRS-M</li> <li>▪ PRS-G</li> <li>▪ REI</li> </ul>
<p>Investments of the Fund in any country may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or price of units to fall. To mitigate these risks, we will select securities that spread across various countries. The decision on diversification will be based on constant fundamental research and analysis of the global markets.</p>	
<b>Currency risk</b>	<ul style="list-style-type: none"> <li>▪ PRS-C</li> <li>▪ PRS-M</li> <li>▪ PRS-G</li> <li>▪ REI</li> </ul>
<p>This risk is associated with investments that are quoted and/or priced in foreign currency denomination. You should be aware that if the RM appreciates against the currencies in which the portfolio of the investment is denominated, this will have an adverse effect on the NAV of the Fund and vice versa. You should note that any gains or losses arising from the movement of the foreign currencies against the base currency of the Fund (i.e. RM) may therefore increase/decrease the capital gains/losses of the investment. The currency gains/losses are in addition to the capital gains/losses of the investment. Nevertheless, you should realise that currency risk is considered as one of the major risks to investments in foreign assets due to the volatile nature of the foreign exchange market. We may utilise a two pronged approach in order to mitigate the currency risk; firstly, by spreading the investments across differing currencies (i.e. diversification) and secondly, by hedging the currencies when it is deemed necessary.</p>	
<b>Risks associated with investment in warrants/options</b>	<ul style="list-style-type: none"> <li>▪ PRS-M</li> <li>▪ PRS-G</li> <li>▪ PRS-E</li> <li>▪ REI</li> </ul>
<p>There are inherent risks associated with investment in warrants/options. The value of warrants/options are influenced by the current market price of the underlying security, the exercise price of the contract, the time to expiration of the contract and the estimate of the future volatility of the underlying security's price over the life of the contract. Generally, the erosion in value of warrants/options accelerates as it approaches its expiry date. Like securities, we will undertake fundamental research and analysis on these instruments to ensure that the risk to the portfolio is mitigated.</p>	
<b>Risks associated with investment in CIS</b>	<ul style="list-style-type: none"> <li>▪ PRS-C</li> <li>▪ PRS-M</li> <li>▪ PRS-G</li> <li>▪ REI</li> </ul>
<p>Since the Fund may invest into CIS, there is a risk of concentration into CIS, in which the CIS's management company has absolute discretion over the CIS's investment technique and knowledge, operational controls and management. In the event of mismanagement of the CIS and/or the management company, the NAV of the Fund, which invests into those CIS would be affected negatively. Should the situation arise, we will seek for another CIS that is consistent with the objective of the Fund.</p>	

Risk	Fund
<b>Risks associated with investment in the Target Fund</b>	<ul style="list-style-type: none"> <li>▪ PRS-AP</li> </ul>
<p>As the Fund invests predominantly in the Target Fund, the Fund is therefore subject to the management risk of the management company and investment manager of the Target Fund. Should there be a substantial change in the Target Fund's structure which is not in line with the Fund's objective, we reserve the right to seek for alternative CIS that is consistent with the objective of the Fund, subject to your approval. During this transition period, we may liquidate the Fund's holdings from the Target Fund and hold up to 100% of its NAV in cash, which will deviate from the Fund's stipulated investment strategies.</p>	

### 2.3. SPECIFIC RISKS ASSOCIATED WITH THE TARGET FUND

As Principal PRS Plus Asia Pacific Ex Japan Equity invests predominantly in the Principal Asia Pacific Dynamic Income Fund ("Target Fund"), the Fund also assumes the risks associated with the Target Fund.

<b>Stock specific risk</b>
Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.
<b>Country risk</b>
Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or price of units to fall.
<b>Liquidity risk</b>
Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.
<b>Currency risk</b>
<p>There are two (2) levels of currency risk associated with the investment of the Fund:</p> <ul style="list-style-type: none"> <li>▪ <b>Currency risk at the Fund level</b> As the investments of the Fund may be denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the investments are denominated may have an impact on the value of these investments. You should be aware that if the currencies in which the investments are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund and vice versa. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.</li> <li>▪ <b>Currency risk at the Class level</b> You should also be aware that currency risk is applicable to Class(es) which is in a different currency than the base currency of the Fund. The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the respective Class(es) may result in a depreciation of the value of your holdings as expressed in the currency denomination of the respective Class(es).</li> </ul> <p>You should realise that currency risk is considered as one of the major risks due to the volatile nature of the foreign exchange market. When deemed necessary, we may utilize derivative instruments, subject to prevailing SC Guidelines, to hedge currency risk. If the Fund utilizes derivative for hedging against the base currency of the Fund, you should note that as a result of hedging, the Fund will not be able to enjoy the full benefits of currency movement in the event of a favourable movement of currency.</p>
<b>Credit and default risk</b>
The Fund will be exposed to a certain degree of credit and default risk of issuers or counterparties when the Fund invests in debt securities, money market instruments and/or place Deposits. Credit risk relates to the creditworthiness of the securities issuers or counterparties and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer or counterparties may impact the value as well as liquidity of the investments. In the case of rated debt securities, this may lead to a credit downgrade. Default risk relates to the risk that a securities issuer or counterparties either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investments. This could adversely affect the value of the Fund. We aim to mitigate this risk by performing bottom-up and top-down credit research and analysis to determine the creditworthiness of its issuers or counterparties, and impose investment limits on exposures for issuers or counterparties with different credit profiles as a precautionary step to limit any loss that may arise directly or indirectly as a result of a defaulted transaction.
<b>Interest rate risk</b>
Interest rate risk refers to the impact of interest rate changes on the valuation of debt securities. When interest rates rise, debt securities prices generally decline and this may lower the market value of the Fund's investment in debt securities. In managing the debt portfolio, we take into account the coupon rate and time to maturity of the debt securities with an aim to

mitigate the interest rate risk.

**Risk associated with investing in CIS**

Since the Target Fund may invest into CIS, there is a risk of concentration into CIS, in which the CIS's management company has absolute discretion over the CIS's investment technique and knowledge, operational controls and management. In the event of mismanagement of the CIS and/or the management company, the NAV of the Target Fund, which invests into those CIS would be affected negatively. Should the situation arise, we will seek for another CIS that is consistent with the objective of this Fund.

**Risk of investing in emerging markets**

In comparison with investments in the developed markets, investment in emerging markets may involve a higher degree of risk due to the greater possibility of political or economic instability and societal tensions. Emerging markets are markets that are, by definition, "in a state of transition" and are therefore exposed to rapid political change and economic declines. The securities in the emerging markets may face a higher risk of price drop while the exchange rates in these emerging markets are generally more volatile than those of developed markets. As such, you should be aware that investments in emerging markets may be subject to higher price volatility and therefore will tend to have a higher investment risk that will affect the Fund's growth. We attempt to mitigate these risks through active asset allocation management and diversification, in addition to our continuous bottom-up and top-down research and analysis.

**The Funds are managed and portfolios are constructed within pre-determined parameters, which have been established by taking into consideration the objective of the Funds, their targeted performance against benchmark, risk budgets and controls. The risk management team, within the investment team, monitors and reviews the Funds regularly to ensure that the portfolio parameters are adhered to.**

**The above summary of risks does not purport to be an exhaustive list of all the risk factors relating to investments in the Funds and are not set out in any particular order of priority. You should be aware that an investment in a PRS may be exposed to other risks from time to time. If in doubt, you should consult professional advisers for a better understanding of the risks.**

Any changes to the benchmark will be reflected in the PHS, which is available on Principal Malaysia website at [www.principal.com.my](http://www.principal.com.my).

##### Investment policy and principal investment strategy

We have appointed Principal Global Investors, LLC ("PGI") as the Sub-Manager of the Fund. Currently, the Sub-Manager will seek exposure to the various asset classes by investing in CIS (including ETF and REITs) to achieve greater market exposure, diversification and for cost efficiency purposes.

At any point in time in the future, the Manager may invest directly into the various asset classes as the Manager deem appropriate and at the Manager's discretion. Where the Fund invest in equities, the Fund may focus on dividend yielding equities of companies, which the Manager believes will offer attractive yields, sustainable dividend payments and/or will exhibit above average growth potential when compared to its industry or the overall market at the point of purchase. Where the Fund invest in debt securities, the debt securities shall have a minimum credit rating of "BBB3" or "P2" by RAM or equivalent rating by MARC or "BBB-" or "A-2" by S&P or equivalent rating by any other international rating agencies. Notwithstanding, the Fund may also invest up to 40% of its NAV in Unrated Debt Securities and up to 10% of its NAV in unlisted securities. When deemed necessary, the Fund may also utilize derivative instruments such as futures contracts and currency forwards for hedging purposes, subject to the prevailing GPRS. The Fund may invest all or a substantial portion of its assets in money market instruments and/or Deposit if the Manager foresee an excessive market volatility, expects prolonged declines, or when there are other adverse conditions, such as political instability to safeguard the Fund, and as part of its liquidity and/or risk management.

The Sub-Manager and/or the Manager will adopt an active investment strategy with frequency that will depend on the market conditions and the market outlook. The asset allocation of the Fund is as below:

## Investment objective

The Target Fund aims to provide regular income by investing primarily in the Asia Pacific ex Japan region and at the same time aims to achieve capital appreciation over the medium to long term.

## Benchmark

The performance of the Target Fund cannot be compared directly with any specific publicly available benchmark. However, the Target Fund has a target return of eight percent (8%) per annum.

This is not a guaranteed return and is only a measurement of the Target Fund's performance. The Target Fund may not achieve the target return in any particular financial year but targets to achieve this growth over the medium to long term. The term "medium to long term" refers to a period of three (3) years and more.

## Investment policy and principal investment strategy

The Target Fund will be managed with the aim of achieving a stable and positive investment returns over the medium to long term through investments in Asia Pacific ex Japan region regardless of market conditions. The companies invested in must be domiciled in, listed in, and/or have significant operations in the Asia Pacific ex Japan region. For listed securities, the investment must be traded in an exchange that is a member of WFE. 'Significant operations' means major businesses of the company. For example, the Target Fund can invest in a company with significant business/operations in Thailand but listed on the New York Stock Exchange. The threshold for 'significant operations' would be if more than 25% of total group revenue is derived from countries in the Asia Pacific ex Japan region. The calculation would be based on the most recent financial reports released by the companies (e.g. interim and annual reports). The term "medium to long term" refers to a period of three (3) years and more.

Under general market conditions, the Target Fund's investment will focus on high dividend yielding equities of companies, which the Target Fund Sub-Manager believes will offer attractive yields\*, sustainable dividend payments and/or will exhibit above average growth potential when compared to its industry or the overall market at the point of purchase. In addition, the Target Fund may also invest in companies with good growth potential<sup>†</sup>, which the Target Fund Sub-Manager foresees may adopt a strong dividend payout<sup>‡</sup> policy. The Target Fund may also invest up to 20% of the Target Fund's NAV in debt securities to be in line with the Target Fund's objective. The Target Fund's investments in debt securities will generally be restricted to debt securities with a minimum credit rating of "BBB" by an international rating agency as prescribed under the Standard of Qualifying CIS or its equivalent rating by other international rating agencies. The Target Fund may also opt to access into the equities and/or debt securities market via the investment in units of other CIS that is in line with the Target Fund's objectives, subject to the requirements of the SC Guidelines on Unit Trust Funds and the Standards of Qualifying CIS.

The asset allocation strategy for the Target Fund is as follows:

- between 60% to 98% (both inclusive) of the Target Fund's NAV will be invested in equities;
- up to 20% of the Target Fund's NAV may be invested in debt securities;
- up to 20% of the Target Fund's NAV may be invested in units of other CIS that is in line with the Target Fund's objectives; and
- at least 2% of its NAV will be invested in liquid assets for liquidity purpose.

However, the Target Fund Manager or the Target Fund Sub-Manager may take temporary defensive positions that may detract from the Target Fund's prescribed asset allocation when the Target Fund Manager or the Target Fund Sub-Manager believes that the equity markets that the Target Fund invests in are experiencing excessive volatility, expects prolonged declines, or when there are other adverse conditions, such as political instability. Under these circumstances, the Target Fund may invest all or a substantial portion of its assets in money market instruments to achieve the Target Fund's investment objective in bearish or non-performing equity markets. The Target Fund Sub-Manager may from time to time reduce its proportion of high risk assets, such as equities and increase its asset allocation to liquid assets such as money market instruments and/or deposits to safeguard the Target Fund.

In response to these adverse conditions, the Target Fund Manager or the Target Fund Sub-Manager may also utilise derivative instruments such as futures contracts to hedge the portfolio. In the event of a downgrade of a counter-party of an OTC derivative below the minimum long-term rating as per the SC Guidelines on Unit Trust Funds, the Target Fund Manager reserve the right to deal with the OTC derivative in the best interest of the Unit holders. The use of derivatives is subject to the prevailing SC regulations and Standards of Qualifying CIS.

The Target Fund will invest in markets where the regulatory authority is an ordinary or associate member of IOSCO. Where necessary, the Target Fund Manager will obtain the licenses/permits for investments in countries that require such licenses/permits. If the Target Fund Manager are unable to obtain the necessary licenses/permits, or the licenses/permits are revoked or not renewed (as the case may be), the Target Fund Manager or the Target Fund Sub-Manager will seek to invest in other accessible markets.

The Target Fund Manager have appointed Principal Singapore, a company incorporated in Singapore as the Target Fund Sub-Manager. Principal Singapore will be responsible for investing and managing the Target Fund in accordance with the investment objective and within the investment restrictions.

The Target Fund Sub-Manager will adopt an active investment strategy with frequency that will depend on the market conditions and the market outlook. The Target Fund Sub-Manager uses a bottom-up stock selection process in searching for

potentially interesting companies that offer attractive yields, sustainable dividend payments and exhibit above average growth potentials than its industry or the overall market. To complement this strategy, the Target Fund Sub-Manager combines it with a top-down country and sector allocation process and will actively trade the securities in the portfolio of the Target Fund. Analysis and study will be made on the macroeconomic trends in Asia Pacific ex Japan economies where the investments are made; in particular, looking at the direction of GDP growth, interest rates, inflation, currencies and government policies to form the view and outlook for each country. This serves as part of the risk management framework that enables the Target Fund Sub-Manager to assess the impact of macroeconomic changes on corporate earnings and dividends and at the same time to determine if there are any predictable trends.

Further, risk management, with an emphasis on portfolio diversification, will form an integral part of the investment process. The Target Fund is constructed and managed within pre-determined guidelines including risk returns trade-off, which will be monitored and reviewed regularly by the investment management team. The risk management strategies and techniques employed include diversification of the Target Fund's asset allocation in terms of its exposure to various sectors, industries and companies.

- The value of the Fund's investment in structured products issued by a single counter-party must not exceed 15% of the Fund's NAV;
- The aggregate value of the Fund's investments in transferable securities, money market instruments, Deposits, OTC derivatives and structured products issued by or placed with (as the case may be) any single issuer/institution must not exceed 25% of the Fund's NAV<sup>Note 1</sup>;
- Except for investments by Core Funds, the value of the Fund's investments in units/shares of any CIS must not exceed 20% of the Fund's NAV<sup>Note 2</sup>;
- The value of the Fund's investment in transferable securities and money market instruments issued by any group of companies must not exceed 20% of the Fund's NAV<sup>Note 1</sup>;
- The Fund's investments in transferable securities (other than debentures) must not exceed 10% of the securities issued by any single issuer;
- The Fund's investments in debentures must not exceed 20% of the debentures issued by any single issuer;

- The Fund's investments in money market instruments must not exceed 10% of the instruments issued by any single issuer. This limit does not apply to money market instruments that do not have a pre-determined issue size.

**Note 1:** Not applicable for **PRS-C**. Instead, the following apply:

- The value of the PRS-C's investments in debentures issued by any single issuer must not exceed 20% of the PRS-C's NAV. This single issuer limit may be increased to 30% if the debentures are rated by any domestic rating agency to be of the best quality and offer highest safety for timely payment of interest and principal;

However, debentures/fixed income instruments which are rated below BBB3/P2 and/or are unrated, may comprise up to 5% of PRS-C's NAV ("the 5% Limit"). In the event the 5% Limit is exceeded, whether as a result of:

  - (ii) an increase in the aggregate value of debentures/fixed income instruments which are rated below BBB3/P2 and/or are unrated; or

If the Funds are not within the investment restrictions and limits, we should not make any further acquisitions in relation to the relevant restrictions and limits and we must rectify as soon as practicable (maximum three (3) months from the date of occurrence).

## 5.2. FEES AND EXPENSES

The following describes the fees that you may **indirectly** incur when you invest in the Funds.

### 5.2.1. Management Fee

Table below stipulates the annual Management Fee charged for each Fund, based on NAV of the Fund. The Management Fee shall be accrued daily based on the NAV of the Fund and paid monthly.

Funds	Maximum Management Fee (% p.a. of the NAV of the Class)		
	Class A	Class C	Class X
Principal RetireEasy Income	1.20%	1.30%	1.20%
Principal PRS Plus Conservative	1.40%	1.50%	1.40%
Principal PRS Plus Moderate			
Principal PRS Plus Growth			
Principal PRS Plus Equity			
Principal PRS Plus Asia Pacific Ex Japan Equity			

**Below is an illustration on how the Management Fee is calculated**

Management Fee for the day = NAV of the Class x Management Fee rate for the Class (%) / 365 days

If the NAV of Class C for the Fund is RM40 million, then

Management Fee for the day for Class C = RM40 million x 1.50% / 365  
= RM1,643.84

**Note:** In the event of a leap year, the computation will be based on 366 calendar days.

### 5.2.2. Trustee Fee

The table below stipulates the annual Trustee Fee charged for each Fund, based on NAV of the Fund. The annual Trustee Fee is accrued daily based on the NAV of the Fund and paid monthly.

Funds	Maximum Trustee Fee (% p.a. of the NAV of the Fund)		
	Class A	Class C	Class X
Principal RetireEasy Income	0.04% p.a. of the NAV of the Fund (Includes local custodian fees and charges but excludes foreign sub-custodian fees and charges), subject to minimum fee of RM24,000.00 p.a.		
Principal PRS Plus Conservative	0.04% p.a. of the NAV of the Fund (Includes local custodian fees and charges but excludes foreign sub-custodian fees and charges)		
Principal PRS Plus Moderate			
Principal PRS Plus Growth			
Principal PRS Plus Equity			
Principal PRS Plus Asia Pacific Ex Japan Equity			

**Below is an illustration on how the Trustee Fee is calculated:**

Trustee Fee for the day = NAV of the Class x Trustee Fee rate for the Class (%) / 365 days

If the NAV for the Fund is RM40 million, then

Trustee Fee for the day = RM40 million x 0.04% / 365  
= RM43.84

**Note:** In the event of a leap year, the computation will be based on 366 calendar days.

The above-mentioned fees and charges payable to us and/or the Funds are subject to:

- 1) any amendments as may be required/imposed by the regulatory authorities such as the SC and the PPA;
- 2) any waiver during promotional period that may be determined by us, the Distributors and/or PPA from time to time. For information on the promotions, please contact us, the Distributors and/or PPA; and
- 3) any applicable taxes and/or duties as may be imposed by the government and/or the relevant authorities from time to time.

### 5.2.3. Other expenses

The Deed also provides for payment of other expenses. The major expenses recoverable directly from the Fund (which will be deducted from the Fund) include:

- expenses incurred in the sale, purchase, insurance, custody (foreign investment only) and any other dealings of investments including commissions/fees paid to brokers and costs involved with external specialists approved by the Trustee in investigating and evaluating any proposed investment;
- (where the foreign custodial function is delegated by the Trustee), charges/fees paid to the sub-custodian;
- expenses incurred in the printing of, the purchasing of stationery and postage for the annual and interim (if any) reports;
- tax and other duties imposed by the government and other authorities and bank fees;
- tax agent's and auditor's fees and expenses;
- valuation fees paid to independent valuers for the benefit of the Funds;
- costs incurred in modifying the Deed for the benefit of Members; and
- costs of convening and holding meetings of Members (other than those meetings convened by or for the benefit of the PRS Provider or Trustee).

We and the Trustee are required to ensure that Management Fee, Trustee Fee, Sales Charge, Redemption Charge and Switching Fee are reasonable and in accordance with the Deed which stipulate the maximum rate in percentage terms that can be charged. Should the Fund invest into units of other CIS that are managed by us or our related corporation, we will ensure that all initial charges are waived and there is no double charging of management fees.

We may alter the fees and charges (other than the Trustee Fee) within such limits, and subject to such provisions, as set out in the Deed and the GPRS. We may, for any reason at any time, where applicable, waive or reduce the amount of any fees (except the Trustee Fee) or other charges payable by the Member in respect of the Fund, either generally (for all Members) or specifically (for any particular Member, a group of Members or investments made via any digital platform) and for any period or periods of time at our absolute discretion.

Expenses not authorized by the Deed must be paid by us or the Trustee out of our own funds if incurred for our benefit.

### 5.3. REBATES AND SOFT COMMISSIONS

We, the Sub-Manager and the Trustee will not retain any form of rebate or soft commission from, or otherwise share in any commission with, any broker in consideration for directing dealings in the investments of the Funds unless the soft commission received is retained in the form of goods and services such as research and advisory services that assist in the decision making process relating to the Fund's investments. All dealings with brokers are executed on most favourable terms available for the Fund. Any rebates will be directed to the account of the Fund.

**There are fees and charges involved and you are advised to consider them before contributing to the Scheme.**

**All the fees and charges above may be increased. A supplementary or replacement disclosure document disclosing the new fees and charges will be issued should the fees and charges be increased. A notice period of ninety (90) days will be given to the Members prior to the effective date of the new fees and charges, which is in accordance with the GPRS.**

# 6. TRANSACTION INFORMATION

## 6.1. VALUATION OF INVESTMENTS PERMITTED BY THE FUNDS

We will carry out the valuation of the Funds in a fair manner in accordance with applicable laws and guidelines. The valuation bases for the investments permitted by the Funds are as below:

- **Listed securities**

The value of any permitted investments, which are quoted on an approved exchange, shall be calculated daily by reference to the last transacted price on that approved exchange. If the last transacted price does not represent the fair value of the securities, then the securities must be valued at fair price as determined in good faith by us, based on the methods or bases approved by the Trustee after appropriate technical consultation, such as the mean of bid and offer prices at the close of trading. Suspended securities will be valued at their last done price unless there is conclusive evidence to show that the value has gone below the suspended price or where the quotation of the securities has been suspended for a period exceeding fourteen (14) days or such shorter period as agreed by the Trustee, whereupon their fair value will be determined in good faith by us based on the methods or bases approved by the Trustee after appropriate technical consultation.

- **Unlisted securities**

The value of securities not listed or quoted on a stock exchange but have been approved by the relevant regulatory authority for such listing or quotation and are offered directly to the Fund by the issuer shall be valued at the issue price of such securities. The value will be determined by the financial institution that issued the securities.

The value of any unlisted RM-denominated debt securities shall be calculated on a daily basis using prices quoted by a bond pricing agency ("BPA") registered with the SC. Where such prices are not available or where we are of the view that the price quoted by the BPA for a specific debt security differs from the market price by more than twenty (20) basis points, we may use the market price by reference to the last available quote provided such quote was obtained within the previous thirty (30) days and we record the basis for using a non-BPA price, obtained necessary internal approvals to use the non-BPA price and keep an audit trail of all decisions and basis for adopting the market yield.

The value of any unlisted non RM-denominated debt securities shall be valued daily by reference to the average indicative yield quoted by three (3) independent and reputable financial institutions. However, where quotations are not available, such unlisted non RM-denominated debt securities will be valued daily at fair price determined in good faith by us, based on the methods or bases, which have been verified by the auditor of the Fund and approved by the Trustee.

- **CIS**

The value of any investment in CIS which are quoted on an approved exchange shall be calculated in the same manner as other listed securities described above. When investing in unlisted CIS, the value shall be determined by reference to the last published repurchase/redemption NAV per unit for that CIS.

- **Money market instruments**

Money market instruments such as negotiable instrument of deposits and commercial papers shall be valued by reference to the quotes provided by independent and reputable pricing source(s), which is deemed fair value, includes but not limited to Bond Pricing Agency ("BPA") registered by the SC. Where the quotes are provided by financial institutions, the valuation of the money market instruments will be based on the average of bid and offer prices quoted by three (3) independent and reputable financial institutions of similar standing at the close of trading. The valuation method is verified by the auditor and approved by the Trustee.

- **Deposits**

The value of Deposits shall be determined each day by reference to the principal value of such permitted investments and the accrued income thereon for the relevant period.

If the value of the Fund's assets is denominated in a foreign currency, the assets are translated on a daily basis to RM based on the bid foreign exchange rate quoted by either Reuters or Bloomberg, at UK time 4:00 p.m. on the same day (Malaysian time 11:00 p.m. or 12:00 a.m.), or such other time as stipulated in the IMS.

## 6.2. UNIT PRICING

We adopt a single pricing method for any transactions (i.e. applications, withdrawals, switches and/or transfers) based on forward prices. This means that we will process your transactions request based on the NAV per Unit at the next valuation point after we receive the completed relevant transaction forms from you together with the PPA authorization (where required). The Sales Charge (if any) will be computed and charged separately based on your application amount.

If the transactions are made by 12:00 p.m. on a Business Day, we will process the transactions using the NAV per unit for that Business Day. For transactions made after 12:00 p.m., we will process the transactions using NAV per unit on the next Business Day.

The valuation point of the Funds for a Business Day will depend on whether the portfolio consists of foreign investments.

**Funds without foreign investments:**

We will value the Fund for a Business Day at the end of that Business Day (T day). The NAV per Unit for a Business Day is available on our website at [www.principal.com.my](http://www.principal.com.my) after 10:00 a.m. on the following Business Day (T+1).

**Funds with foreign investments:**

We will value the Fund for a Business Day on the next Business Day (T+1) by 4:00 p.m. This is to cater for the currency translation of the foreign securities/instruments to the Funds' base currency. Currently, the currency translation is based on the bid exchange rate quoted by Bloomberg/Reuters at UK time 4:00 p.m. on the same day (Malaysian time 11:00 p.m. or 12:00 a.m.), or such other time as stipulated in the IMS. The NAV per Unit for a Business Day is available on our website at [www.principal.com.my](http://www.principal.com.my) after 5:30 p.m. on the following Business Day (T+1).

The Fund must be valued at least once for every Business Day. The method of determining NAV per Unit is calculated as follows:

$$\text{NAV per Unit} = \frac{\text{NAV of the Class}}{\text{Number of units in issue of the Class}}$$

The NAV of the Fund is the sum of the value of all investments and cash held by the Fund (calculated in accordance with the Deed) including income derived by the Fund which has not been distributed to Members, less all amounts owing or payable in respect of the Fund which also includes any provisions that may be made by us and the Trustee. For example, a provision may be made for possible future losses on an investment which cannot be fairly determined.

**Note:** We will ensure the accuracy of the prices to the Federation of Investment Managers Malaysia - Funds Malaysia System.

**6.2.1 Multi-class Ratio (MCR)**

MCR is the apportionment of the NAV of each Class over the Fund's NAV based on the size of each Class. The MCR is calculated by dividing the NAV of the respective Class by the NAV of the Fund before income and expenses for the day. The apportionment is expressed as a ratio and calculated as a percentage.

Below is an illustration on computation of the NAV of each Class:-

	Fund (RM)	Class A (RM)	Class C (RM)	Class X (RM)
NAV of the Fund	140,000,000.00	40,000,000.00	20,000,000.00	80,000,000.00

\* Before deductions of Management Fee, Trustee Fee and PPA administration fee.

**Calculation of investment amount and Units entitlement**

The number of Units that you will receive will be rounded down to two (2) decimal places.

The illustrations below can be applied to other Classes taking into consideration the fees of the respective Classes

### Illustration 1

#### Calculation of number of Units received, Sales Charge and total amount payable by you

Assumptions:

NAV per Unit of Class A = RM0.5000 (truncated to 4 decimal places)  
Sales Charge for Class A = 3.00%

You wish to invest RM10,000 in Class A of the Fund.

Calculation of total number of Units received by you

---

= Investment amount / NAV per Unit  
= RM10,000 / RM0.5000  
= 20,000 Units

Calculation of Sales Charge paid by you (which is payable in addition to the investment amount)

---

= NAV per Unit x number of Units received x Sales Charge rate  
= RM0.5000 x 20,000 Units x 3.00%  
= RM300.00

Calculation of total amount paid by you

---

= Investment amount + Sales Charge paid  
= RM10,000.00 + RM300.00  
= RM10,300.00

#### Calculation of investment value

Following the example above, assuming the NAV per Unit calculated for a particular Business Day thereafter is RM0.5110 (truncated to 4 decimal places).

Calculation of investment amount

---

= Number of Units x NAV per Unit  
= 20,000 Units x RM0.5110  
= RM10,220.00

### Illustration 2

#### Calculation of withdrawal value, Redemption Charge and amount payable to you

Assuming you have 150,000 Units, you wish to withdraw RM10,000 from your investment in the Fund. Your withdrawal request is received before 12:00 p.m. of a Business Day. NAV per Unit for that Business Day is RM0.5230 (truncated to 4 decimal places) and there is no Redemption Charge.

Calculation of number of Units withdrawn

---

= Withdrawal value / NAV per Unit  
= RM10,000.00 / RM0.5230  
= 19,120.46 Units

Calculation of number of remaining Units

---

= Units held before withdrawal - Units withdrawn  
= 150,000.00 Units - 19,120.46 Units  
= 130,879.54 Units

Calculation of Redemption Charge paid by the you (to be deducted from withdrawal value)

---

= NAV per Unit x number of Units withdrawn x Redemption Charge rate  
= RM0.5230 x 19,120.46 Units x 0.00%  
= RM0

Calculation of amount payable to the you

---

= Withdrawal value - Redemption Charge paid  
= RM10,000.00 - RM0.00  
= RM10,000.00

The amount payable to you is RM10,000.00 (subject to payment of tax penalty set by the Inland Revenue Board, which will be deducted by us).

### **Calculation of tax penalty imposed on pre-retirement withdrawal (Applicable to sub-account B)**

Following the example above and assuming that this is a pre-retirement withdrawal, which is subject to a tax penalty of 8% of the amount withdrawn.

#### *Calculation of tax penalty*

---

= Amount payable to you x tax penalty of 8% of the amount withdrawn  
= RM10,000.00 X 8%  
= RM800.00

#### *Calculation of net amount payable to you*

---

= Amount payable to you – tax penalty  
= RM10,000.00 – RM800.00  
= RM9,200.00

## **6.3. INCORRECT PRICING**

We shall take immediate remedial action to rectify any incorrect valuation and/or pricing of the Funds or Units of the Funds. Where such error has occurred, we shall reimburse the money in the following manner:

- (a) in the event of over valuation or pricing, we shall reimburse:
  - (i) the Funds for any withdrawals of Units; and/or
  - (ii) you, if you have purchased Units at a higher price; or
- (b) in the event of under valuation or pricing, we shall reimburse:
  - (i) the Funds for any subscription of Units; and/or
  - (ii) you, if you have withdrawn Units of the Fund at a lower price.

Provided always that any reimbursement to you as a result of any withdrawal shall be subject to such tax penalty payable thereto.

Notwithstanding the above, unless the Trustee otherwise directs, we shall make the reimbursement as per the IMS, only where an incorrect pricing:

- (i) is equal or more than 0.50% of the NAV per Unit; and
- (ii) results in a sum total of RM10.00 or more to be reimbursed to Member for each sale or withdrawal transaction.

We shall have the right to amend, vary or revise the abovesaid limits or threshold from time to time, subject to any regulatory or governing body's requirements.

- (d) The Fund has reached its maturity date as specified in the deed; and
- (e) The effective date of an approved transfer scheme has resulted in the Non-Core Fund, which is the subject of the transfer scheme, being left with no asset or property.

A Class may be wound-up if a Special Resolution is passed at a Members' meeting of that Class to wind-up that Class provided always that such winding-up of that Class does not materially prejudice the interest of any other Class, and in respect of a Core Fund would not result in the winding-up of that Core Fund.

## 12.6 MEETINGS OF MEMBERS

A Members' meeting may be called by us, the Trustee and/or Members. Any such meeting must be convened in accordance with the Deed and/or the GPRS.

Voting is by a show of hands, unless a poll is duly demanded or the resolution proposed is required by this Deed or by law to be decided by a percentage of all Units. At any meeting of Members of the Class, Fund or the Scheme, as the case may be, save and except for a resolution for the termination or winding-up of the Non-Core Fund or a Class to a Fund, as the case may be, each Member present in person or by proxy has one vote on a show of hands, regardless of its NAV per Unit. On a poll save and except for a resolution for the termination or winding-up of the Non-Core Fund or a Class to a Fund, as the case may be, each Member of the Class, Fund or the Scheme, as the case may be, present in person or by proxy has one vote for each whole fully paid Unit held regardless of its NAV per Unit.

The quorum for a meeting of Members of a Class, Fund or the Scheme, as the case may be, is five (5) Members of that Class, Fund or the Scheme, as the case may be, present in person or by proxy, provided that for a meeting which requires a Special Resolution the quorum for that meeting shall be five (5) Members of the Class, Fund or the Scheme, as the case may be, whether present in person or by proxy, holding in aggregate at least twenty five per centum (25%) of the Units in issue for that Class, Fund or the Scheme, as the case may be, at the time of the meeting. If the Class, Fund or the Scheme, as the case may be, has five (5) or less Members, the quorum required shall be two (2) Members of that Class, Fund or the Scheme, as the case may be, whether present or by proxy and if the meeting requires a Special Resolution the quorum for that meeting shall be two (2) Members of the Class, Fund or the Scheme, as the case may be, whether present in person or by proxy, holding in aggregate at least twenty five per centum (25%) of the Units in issue for that Class, Fund or the Scheme, as the case may be, at the time of the meeting.

## 12.7 PERMITTED WITHDRAWALS AND PRE-RETIREMENT WITHDRAWALS

Subject to permitted reasons for withdrawals, you may not make a withdrawal from any of the Funds until you reach the Retirement Age. Upon reaching the Retirement Age, you shall be entitled to withdraw the full amount accumulated in the Funds held by you as Accrued Benefits without payment of any tax penalty.

Request for payment for withdrawals from any of the Funds may be made for the following circumstances and as follows:

No	Circumstances for withdrawal	Sub-account	Extend of withdrawals	Subject to tax penalty
(a)	Upon reaching Retirement Age	A & B	Partial or full	No
(b)	Pre-retirement withdrawals	B	Partial or full	Yes
(c)	Death of Member	A & B	Partial or full	No

No	Circumstances for withdrawal	Sub-account	Extend of withdrawals	Subject to tax penalty
(d)	Permanent departure of a member from Malaysia	A & B	Full	No
(e)	Due to permanent total disablement, serious disease or mental disability of a member	A & B	Full	No
(f)	For healthcare purpose	B	Partial or full	No
(g)	For housing purpose	B	Partial or full	No

Upon receiving the Member's request to withdraw some or all of the Accrued Benefits in any of the Fund, we and/or PPA may require you to provide evidence of the facts necessary to establish your right to withdraw moneys from any of the Fund.

In relation to item (c), for withdrawal following the death of a Member, we must obtain prior authorization from the PPA before issuing instructions to the Trustee to cancel Units.

In relation to item (b), (f) and (g) above, withdrawals may be requested by the member once every calendar year from each PRS provider (from one or multiple funds under any scheme(s) managed by that PRS provider) provided that the individual has been a member of that scheme (whether via member contribution or employer contribution) for at least one (1) year.

In relation to item (b), we will deduct an 8% tax penalty (or such other applicable tax penalty) from the withdrawn amount before making payment to you.

In relation to item (f), the withdrawal is only permitted for member's ownself or immediate family on certain illnesses. Please refer to our website at [www.principal.com.my](http://www.principal.com.my) for the list of illnesses.

Please note that the above table may subject to such amendments, modification, variation and/or exemption as may be determined by the SC, PPA and/or relevant ministry or authorities from time to time.

## **12.8 CIRCUMSTANCES WHERE MEMBERS MAY SWITCH FUNDS WITHIN THE SCHEME AND TRANSFER UNITS OF FUNDS TO ANOTHER PRS PROVIDER**

Members have the option to switch into any of the Funds under the Scheme or funds under Principal Islamic PRS Plus. Switching is limited to once a month only regardless of whether it is switching of funds under the same PRS or switching between funds of different PRS managed by Principal Malaysia and switching is not allowed between the classes within the Funds.

Switching will be conducted based on the value of your investment in a Fund. The minimum amount for a switch must be equivalent to the minimum withdrawal amount applicable to a fund or such other amount as we may from time to time decide. Please note that the minimum amount for a switch must also meet the minimum initial contribution amount or the minimum subsequent contribution amount (as the case may be) applicable to the fund to be switched into.

Prior to a Member reaching the retirement age, the accrued benefits amount from one or multiple funds under the scheme(s) managed by that PRS provider shall be transferred at the request of a member once every calendar year to another PRS provider provided the individual has been a member of that scheme (whether via member contribution or employer contribution) for at least one (1) year and all the accrued benefits to be transferred from a particular fund must be transferred to one (1) other fund. This also applies if the Member transfers from any funds under schemes of another PRS providers.

Dear Sirs

## **Principal PRS Plus**

### **Tax treatment of funds under a private retirement scheme (“PRS”), contributors and contributors’ employers**

This letter has been prepared for inclusion in this Third Replacement Disclosure Document in connection with the offer of units in the funds under Principal PRS Plus (hereinafter referred to as “the Scheme”). The funds under the Scheme comprise of funds listed in the Attachment 1 (hereinafter referred to as “the Funds”) which are structured as PRS funds.

The Funds are offered under the PRS approved by the Securities Commission in accordance with the Capital Markets and Services Act 2007.

The purpose of this letter is to provide an overview of the Malaysian taxation treatment of the Funds under the Scheme, contributors to the Scheme and their employers.

## **Taxation of the Funds**

The Funds are subject to the provisions of the Malaysian Income Tax Act 1967 (“MITA”).

Paragraph 20, Schedule 6 of the MITA exempts income of any “approved scheme” from tax. An “approved scheme”<sup>1</sup> is defined under Section 2 of the MITA to include a Private Retirement Scheme. Section 2 of the MITA defines “Private Retirement Scheme” to mean “a retirement scheme approved by the Securities Commission in accordance with the Capital Markets and Services Act 2007”.

The Malaysian Inland Revenue Board (“MIRB”) has clarified in its Public Ruling No.9/2014, Private Retirement Scheme issued on 24 December 2014 that income received by a PRS fund is exempt from tax under Paragraph 20, Schedule 6 of the MITA.

Note however that gains derived by the Funds from the disposal of chargeable assets as defined in the Real Property Gains Tax Act 1976 (“RPGT Act”) may be subject to real property gains tax under the RPGT Act.

## **Implementation of Sales and Service Tax (“SST”)**

Sales and Service Tax (“SST”) was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Funds incurs expenses such as management fees, the management services provided by asset and fund managers are specifically excluded from the scope of Service Tax. As for other

<sup>1</sup> Pursuant to Section 2 of the MITA, “approved scheme” is defined to include the Employees Provident Fund, private retirement scheme or any pension or provident fund, scheme or society approved by the Director General under Section 150 of the MITA.

fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a “taxable person”, who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as “taxable services”).

#### Taxation of contributors

##### 1. Distribution of profits

Distribution of profits to the contributors of the PRS funds in the form of units is exempt from income tax in their hands.

##### 2. Tax relief on contributions

Pursuant to Section 49(1D) of the MITA, individual contributors who are Malaysian tax residents and have made contributions to a PRS fund or paid premium for deferred annuity<sup>2</sup> in a basis period for a year of assessment are allowed to claim a tax relief of the aggregate amount of the deferred annuity payments or PRS contributions or both or RM3,000, whichever is less, for that year of assessment. This tax relief is applicable effective from the year of assessment 2012 until year of assessment 2025.

##### 3. Withdrawal of contributions

Pursuant to Section 109G of the MITA, withdrawal of contributions from the Scheme by an individual contributor before reaching the age of 55 (other than by reason of permanent total disablement, serious disease, mental disability, death or permanently leaving Malaysia) would result in a withholding tax of 8% on the amount of contributions withdrawn, which would be deducted before payment is made to the individual contributor. The withholding tax deducted by the PRS provider is to be remitted to the Director General of the Inland Revenue Board within one month after making the payment to the individual contributors. Where the PRS provider fails to remit the withholding tax by the due date, a 10% penalty on the unpaid amount will be imposed on the PRS provider and the increased sum shall be a debt due from the PRS provider to the Government.

#### Deductibility of contributions by employers

Pursuant to Section 34(4) of the MITA, employers are eligible to claim a tax deduction of up to a total of 19% of an employee's remuneration in respect of contributions made by employers to approved schemes (including contributions to Employees Provident Fund, PRS or any provident fund, scheme or society approved by the Director General under Section 150 of the MITA) in respect of that employee.

We hereby confirm that, as at the date of this letter, the statements made in this letter correctly reflect our understanding of the tax position under current Malaysian tax legislation and the related interpretation and practice thereof, all of which are subject to change, possibly on a retrospective basis. We have not been retained (unless specifically instructed hereafter), nor are we obligated to monitor or update the statements for future conditions that may affect these statements.

The statements made in this letter are not intended to be a complete analysis of the tax consequences relating to contributors of the Scheme. As the particular circumstances of each contributor may differ, we recommend that contributors of the Scheme obtain independent advice on the tax issues associated with the Scheme.

Yours faithfully
