### KEY RISKS

**You should be aware that -**

- The value of your investment, and the distribution payable, may go down as well as up.
- The return of the Fund is not guaranteed.

#### Equity Market Risk

The performance of the Fund is subject to the volatility of the stock market which is influenced by the changes in the economic and political climate, profit rate, international stock market performance and regulatory policies. The movement of the value in the underlying investment portfolio will affect the NAV of the Fund. Any downward movement of the value will negatively impact the NAV of the Fund.

#### Stock Specific Risk

Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the fund's NAV.

### Equity-related Securities Risk

The value of the Shariah-compliant equity-related securities depends on the value of the underlying equities that the Shariah-compliant securities are related to. Any upward movement in the value of the underlying Shariah-compliant equities may result in an upward movement of the value of the respective Shariah-compliant equity-related securities, and vice versa. Hence, the movement of the value of the Shariah-compliant equity-related securities will affect the value of the Fund.

The fund may also invest in Shariah-compliant equity-related securities such as Shariah-compliant warrants, that have an expiry date and may experience time decay, and the erosion of value accelerates as the instrument advances to its expiry date. If the Shariah-compliant warrant is not exercised on or before the expiry date, the Shariah-compliant warrant will have no value and negatively impact the NAV of the Fund.

### Shariah Status Reclassification Risk

This risk refers to the risk that the currently held Shariah-compliant equities in the portfolio of Islamic funds may be reclassified as Shariah non-compliant in the periodic review of the securities by the SAC of the SC, the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose of such securities.

Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposal of the reclassified Shariah non-compliant equities securities. In such an event, the Fund is required:

- (a) to dispose of the securities within one (1) calendar month if the value of the securities is equal to or exceeds the investment cost on the effective date of Reclassification of the List of Shariah-compliant securities ("Reclassification") by the SAC of the SC, the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the effective date of Reclassification. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities after the effective date of Reclassification should be channeled to *baitulmal* and/or approved charitable bodies;
- (b) to hold the securities if the value of the said securities is below the investment cost on the effective date of Reclassification, until the total subsequent dividends received (if any) and the market price or value of the securities is equal to the cost of investment at which time disposal has to take place within one (1) calendar month; or
- (c) to dispose of the securities at a price lower than the investment cost which will result in the decrease in the Fund's value.

Please refer to [Section 3.5](#) of the Master Prospectus for further information on product specific risks.
